

Nemo Build Report - NZ Real Estate AI System

Complete Build Documentation & A Records

Generated: 2026-03-19 04:31 UTC
Builder: Nemo (Claude Code sub-agent)
Target: AWS EC2 Instance
Repository: github.com/aventadorvr-ux/enki-backup

Infrastructure & A Records

EC2 Instance Details

Property	Value
Public IP	3.25.170.226
Private IP	172.31.35.97
Hostname	ip-172-31-35-97.ap-southeast-2.compute.internal
Region	ap-southeast-2 (Sydney)
OS	Ubuntu 24.04 LTS (x86_64)
Kernel	6.17.0-1007-aws

Open Ports

Port	Protocol	Service	Process
------	----------	---------	---------

22	TCP	SSH	sshd
8000	TCP	HTTP API	uvicorn
3000	TCP	HTTP Frontend	python3

System Specifications

Resource	Total	Used	Available
Memory	7.6 GB	606 MB	7.0 GB
Disk (/)	96 GB	3.2 GB	93 GB (4%)
Uptime	5 hours 36 minutes		

5-Agent Architecture

Lead Agent

Purpose: Lead qualification and routing

- `qualify` - Rule-based lead scoring
- `qualify_ai` - AI-powered analysis
- `respond` - Auto-response templates
- `route` - Agent routing

Content Agent

Purpose: Property descriptions and marketing

- `description` / `description_ai` - Generate listings
- `social` / `social_ai` - Social media posts
- `email` - Email campaigns

Scheduling Agent

Purpose: Calendar and booking management

- `book_showing` - Schedule property viewings
- `inspection` - Building inspections
- `availability` - Check agent availability

Market Intelligence Agent

Purpose: CMAs and competitor tracking

- `cma` - Comparative Market Analysis
- `track_competitor` - Monitor competitors
- `trends` - Market trend analysis

Transaction Coordinator

Purpose: Deal coordination and compliance

- `track_deadline` - Monitor deadlines
- `checklist` - Deal checklists
- `compliance` - Regulatory checks

API Endpoints

Base URL: `http://3.25.170.226:8000`

Method	Endpoint	Description
GET	/	API info
GET	/health	Health check
GET	/docs	Swagger UI
GET	/api/v1/agents	List agents
POST	/api/v1/agents/{agent}/process	Send task

Access URLs

Service	URL	Status
Backend API	http://3.25.170.226:8000	Healthy
API Docs	http://3.25.170.226:8000/docs	Available
Dashboard	http://3.25.170.226:3000	Running

Pending Actions

1. AWS Security Group: Open ports 8000 & 3000 for external access
2. Domain Name: Configure A record pointing to 3.25.170.226
3. SSL/TLS: Set up HTTPS with Let's Encrypt
4. Redis: Install and configure for production
5. Database: Migrate from SQLite to PostgreSQL
